

Right behind the Burlington Mall!

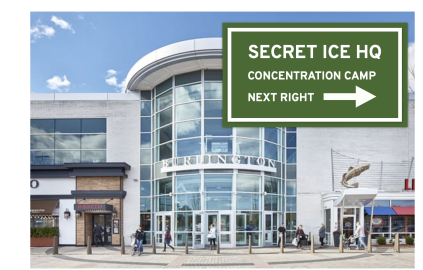

Every detainee in New England is put through this repurposed office building, sometimes kept for days or weeks, and they are not provided with basics like beds, showers, medical care, or meals.

The Burlington ICE facility is the regional ICE headquarters for all of New England. ICE has turned this unassuming office building into an illegal prison.

The facility is owned by a private landlord, Robert Murray. He will make \$2.2 million in rent from this illegal facility in 2026. [7]

Congresspeople have also toured or attempted to tour the facility and have agreed that conditions are inhumane and unacceptable. [6]

Burlington Town has tried to inspect the facility and has been to court, so far with no success. [5]

It is indeed illegal! BUT THAT SOUNDS ILLEGAL?
