HOPE PUNK AFFIRMATIONS
 FOR A PLAGUE WORLD...

I deserve clean air and a well-ventilated space in places that I occupy.

I owe it to myself to protect my health, my one body, & my one life with the best tools available to us.

Everyone deserves a place and to be included in public events. Universal masking in public enables this.

Healthcare is a human right.

We can build a better future together.

Tomorrow needs you.

"Masks don't work" has always been an insane stance.

Which mask? For what? We know the right masks work great for the right applications. All the way up to nuclear hazards!

Why do you still mask?
 You don't HAVE to...

Yeah! Masking is punk.
 No authority is telling you to mask, and they haven't in years.
 Caring for your own health is an act of defiance.
 Caring for the health of others is rebellion.

Punk is about caring.
 Punks rejects social scripts.
 Punk is caring for yourself and others.
 Punk is not waiting for permission or validation.
 Masking is punk.
 YOU ARE PUNK.
